Project Coordinator
Overview:

Are you the enthusiastic person we are looking for to take on a once-in-a-lifetime opportunity to help us work with the community of Byker and meet some of the issues they face each day?

We need you to help us to identify what those issues are and how we can best use an iconic building in the very centre of Byker to help address them!

In the first instance, you will be given a year, working three days a week, to complete this work of consultation and discovery, and during this time you will be working with the Lighthouse Project Steering Group to map out the future.

Background:

The Mission Initiative Newcastle East (MINE)

MINE is a registered charity that represents 5 Anglican churches on the east side of the city of Newcastle upon Tyne. Established in 2015 (with an exciting history prior to this), we have 5 trustees and 4 full time members of staff, paid through the Diocese of Newcastle.

In the past, one of our church buildings, St Silas, has become the headquarters of the Tyne Housing Association – providers of supported housing (the project included 18 supported living units where the church hall used to be), and another, St Martin’s, has been transformed into a new build children and family centre. This Lighthouse Project has as it’s focus a third church, St Michael’s, with a building high above the Quayside.

Where we are now and where we hope to go.

Seven years ago an ambitious Children’s and Youth programme was started at St Michael’s in response to local need, running clubs, drop-ins and schools work and offering a trainee scheme which gives local young
people the opportunity to spend a year being trained and equipped as youth workers serving their own community. We currently work with around 200 children and young people aged between 6-18 and have 30 volunteers and work in 7 local schools. Very early on, though, it became a MINE project spreading beyond its parish borders, engaging in more work than one parish alone could manage. Yet, the area of greatest need for youth and children is arguably still around St Michael’s and it would be ideal to keep the base for MINE Youth within the Byker estate and utilizing St Michael’s Church.

However, our interest is much more than the building itself or this one project which is already well established. We hope to discover what our community now needs most to make it thrive, and to work with others to make Byker a better place for the future. We would hope that the building of St Michael’s might be of use in this, but we are also open to other possibilities.

**Byker and the Church building of St Michael’s.**

The Byker Estate ranks highly in nearly all markers or social deprivation. The Church Urban Fund, using the IMD 2015 scale, ranks the area as the 75th most deprived parish of 12,599 in the UK. For child poverty, it ranks as the 24th most deprived of 12,595. Educational aspiration and attainment are low, as are health and employment. However it’s also a vibrant, multi-cultural area, with a proud history, that has more recently attracted artists and business entrepreneurs.

The St Michael’s building, located on the top of Byker Hill, behind the Byker Wall, has unrivalled views over the city and up the Tyne Valley and, despite its lack of facilities, is already being used as a hub for children, young people and families in the area, where they are welcomed and supported.

Over the past three years we have increasingly looked for opportunities to use the Church building in all sorts of ways - being resourceful and creative with what we have, to make the space as welcoming and as attractive as possible. We’ve also used the building more regularly as a worship space with an increasing number of Baptisms and occasional weddings. For example, in November 2016, the congregation of St Michael’s, after 15 years away, made the move back into the building for its regular Sunday worship, using a temporary marquee in the main space of the building to create an intimate and welcoming worship area which could easily be heated in the winter. This was a valuable first step in discerning the future
development, direction and need of the building in the Byker Community. In May 2019, the work of the Church was featured in the Church Times.

The Challenge

We believe, though, that the Church, as well as being a place of worship, can become a vital space which can meet the needs of the whole Community. In these uncertain times, as areas like Byker begin to disproportionately experience the social and economic effects of the Covid-19 pandemic, the task of working with the community and planning for the future has never been more important. We are looking for someone, therefore, who is keen to make a real difference, is willing to take on an exciting challenge and who would work with us on this ambitious vision for Byker.

We are calling this project The Lighthouse Project – might you be the one to join us in MINE and help us to realise our hopes and our dreams?

The key purpose of the project’s present phase and thence the role is to;

- Define the scope and objectives by which St Michael’s and its estate can serve the community
- Devise a social enterprise strategy, building & facilities project plan, business plan and funding strategy through which the project may be delivered
- Determine the feasibility of the project to include the financial viability, resourcing, fundraising, governance and volunteering commitment to realise the project’s vision and objectives
- Prepare the means by which the project might be realised including relationship building with key stakeholders and sponsors, make grant applications, facilities & volunteering management and implementation planning
